

Windsport Sprint 15 catamaran Spring Update

Welcome to the 2012 Sprint15 sailing season - may we have great winds , warm weather and exciting **class one** design racing.

Spring @ Windsport

Spring has already sprung at Windsport with a steady increase of orders for **class legal** replacement parts from sailors who are preparing their boats for the start of the main sailing season. Windsport's extensive stock of Sprint15 replacement parts, as seen on our catparts website www.catparts.windsport.co.uk, is comprehensive, well stocked and quality checked.

Thanks to the Windsport team, Alex and Matt, our storage and packing areas have gone under some winter refinements with the challenge to improve our picking, packing, paperwork and shipping process for the smallest to the biggest items.

Our Windsport support trailers have also had their winter service, modifications and improvements so we can provide the best support possible at events. Power-packs and increased load carrying means we have the capacity to provide an even more effective mobile workshop where we can carry out repairs to keep you on the water at supported events.

Sprint 15 @ the 2012 RYA Sailboat Show – 3rd/4th March.

The Sprint 15 class stand will have the support of the Windsport team during the show. A shiny 'race spec' Sprint 15, supplied by Windsport, will be on display fitted with the recently approved **class legal** connecting bar end adjuster. The Sprint 15 class is the most successful singlehanded UK catamaran reflecting the strength of the class, success of events and pro-active class sailors and supplier support. Many well respected catamaran sailors acknowledge the Sprint15 design is very difficult to improve, despite attempts to develop and increase overall performance with various sail plans and modifications the performance of the original Sprint15 still delivers impressive results verifying there is nothing better or more competitive than Sprint 15 production **one design** sailing.

Dinghy show & FREE Windsport coaching

To attract new customers Windsport is providing the class stand with an offer - the chance to win " 2 days personal catamaran training a Windsport's top coach - absolutely free!" All entrants have to do is complete a simple entry form on the stand or online @ Windsport This free competition is aimed at attracting new sailors to the class, gaining contacts and attracting stand conversation with newcomers. The competition is open to everyone and at the closure of the competition a winner will be randomly selected and the entry list can be shared with the class.

Windsport Coaching Weekend

Windsport are planning to host a Sprint15 Special Coaching weekend - 2-3rd June. The training venue is the Windsport Centre in Cornwall, situated alongside the wide Falmouth Estuary with access to the open sea, no better training location and, dare we say, no better coaching! The value of coaching can never be underestimated, whatever your level of skill, channelled coaching is the stepping stones to closing the gap between you and the boats in front or just getting the best out of your boat. Windsport has camping onsite, B & B close by and for those who want to splash out luxury hotels just down the road. Your visit to Cornwall does not have to be all about Sprint15 training, take a day or so either side and enjoy a short break with family or friends. There

are plenty of places to explore, famous restaurants, cliff walks, picture galleries, the list goes on and on.

For those who want some alternative sailing action, Windsport landyachting is an activity not to be missed.
